

COVID19 Vaccination Report

Manitoba First Nations Pandemic Response Coordination Team

Date: December 30, 2021

The information describes FN vaccines that have been recorded in PHIMS as of December 30, 2021. Since many communities do not have access to PHIMS directly we know many more doses have been administered in the communities but have not yet been recorded in PHIMS. We continue to work to address the delay so that the numbers we report more accurately reflect the excellent work going on in communities.

The reports captures people 5 years of age and older who received vaccinations and also people who have received a 3rd dose.

Total Doses Administered

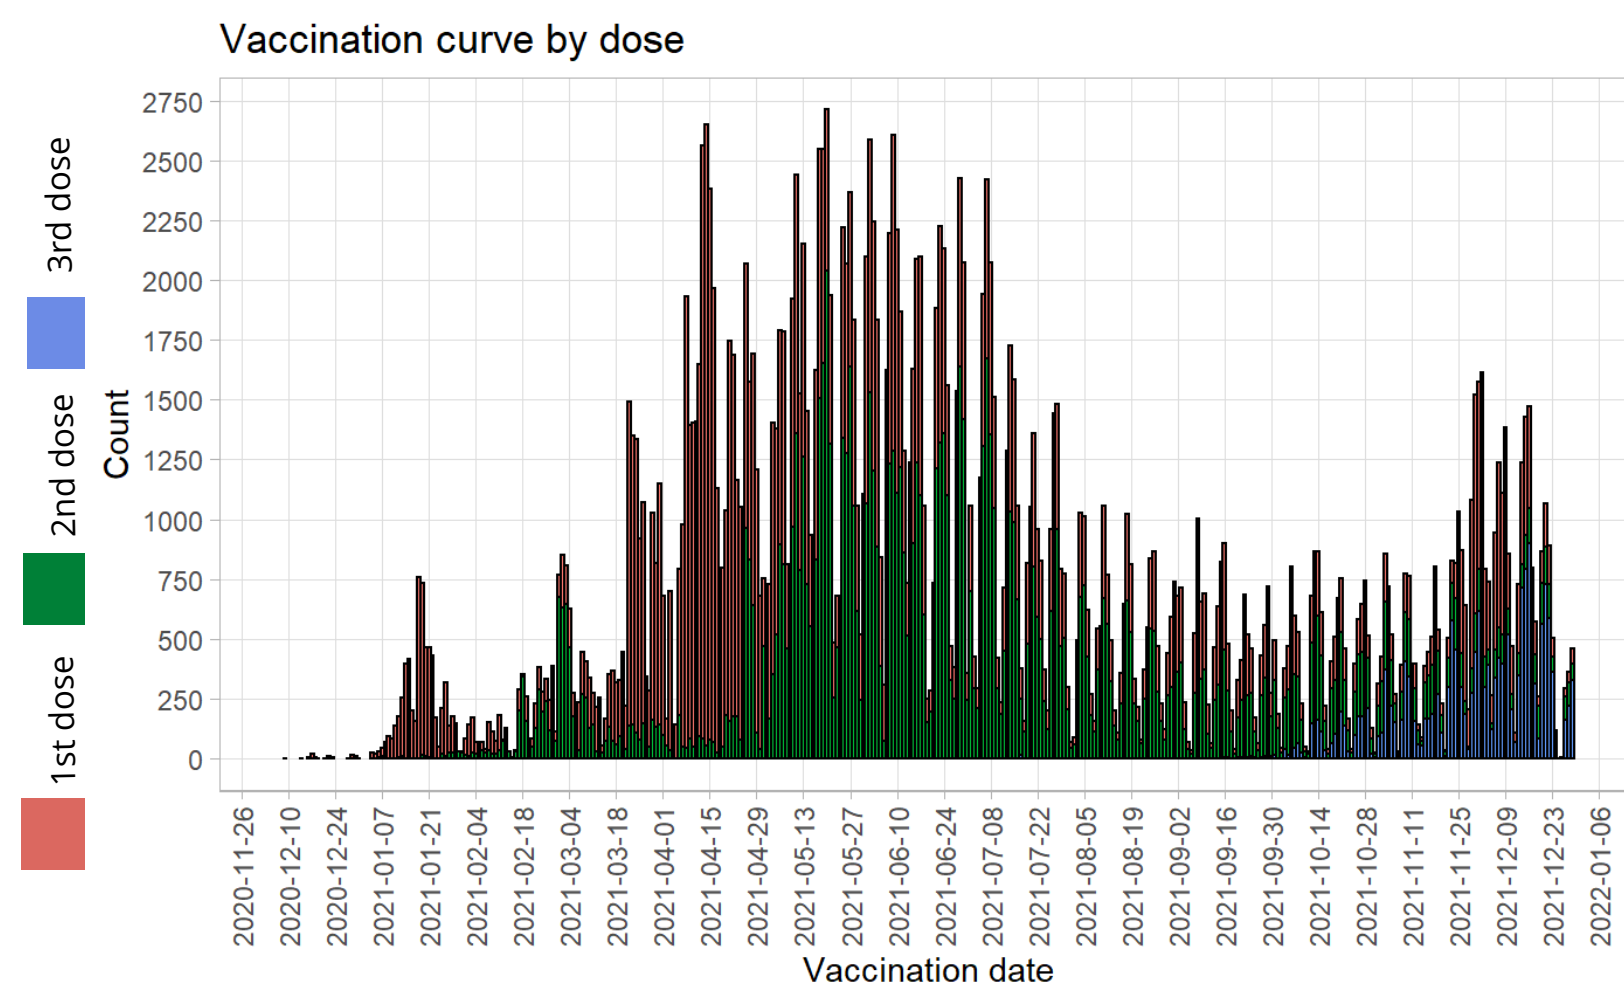

Total number of vaccinations: **267,657**

- 21,024 First Nations received 3 doses
